

Basic Plus Formulary

List of Abbreviations

ACA: Affordable Care Act

OTC: Over the Counter

PA: Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

QL: Quantity Limit. For certain drugs, the Plan limits the amount of the drug that we will cover.

ST: Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

LA: Limited Availability

Note: You, your doctor or your pharmacist can call Express Scripts at (800) 753-2851 to begin the review process for drugs that require PA, QL and ST. After contacting Express Scripts, your doctor will receive a form to fill out and fax back to Express Scripts. Express Scripts will send you and your doctor a letter confirming if coverage has been approved (usually within three business days of receiving the necessary information).

Drug Tier Key (Drug tiers apply only to plans with copays when filling prescriptions. Drug tiers do not apply to plans that require you to pay 100 percent of the cost of the drug until you meet your deductible. Not all tiers apply to all plans.)

01: Generic drugs

02: Preferred brands

03: Non-preferred brands

04: Specialty drugs*

05: Zero cost share preventive drugs

*Specialty drugs are limited to a 30-day supply and may be required to be filled at a contracted specialty pharmacy.

This list is subject to change at any time. For the most up-to-date information, please call the Rx Member Services number on your health plan member ID card.
